PRIVACY POLICY

of the “Russian GPT” Service

Effective Date: September 22, 2025

The current version is available at:

https://russiangpt.altaymountaincode.ru/

---

1. General Provisions

This Privacy Policy defines the procedure for handling information used in the operation of the “Russian GPT” service (hereinafter referred to as the **Service**).

This Policy is developed taking into account the requirements of:

- Federal Law of the Russian Federation No. 152-FZ “On Personal Data”;
- Law of the Republic of Kazakhstan “On Personal Data and Their Protection”.

By using the Service, the User confirms acceptance of this Privacy Policy.

---

2. Nature of the Information Used

The Service operates on the principle of information minimization.

Within the operation of the Service, no collection, storage, or processing of information about the User’s identity is carried out that would allow establishing or determining a specific natural person.

---

3. Email Address

During registration, the User independently provides an email address.

The email address:

- is used exclusively as a technical identifier of the user account;
- is not verified for accuracy or validity;
- may be provided by the User in an arbitrary form;
- is not used to establish the identity of the User.

Responsibility for the accuracy and ownership of the provided email address rests entirely with the User.

---

4. Absence of Other User Information

The Service does not collect, store, or process any other information, including but not limited to:

- last name, first name, patronymic;
- phone number;
- passport or other identification data;
- location data;
- payment details;
- biometric data;
- message history, requests, and responses.

---

5. Conversations and User Content

All conversations, requests, and responses:

- are stored exclusively on the User’s local device;
- are not transmitted to the Service owners for storage;
- are not available for viewing or analysis by the Service.

The User bears full responsibility for the content and storage of such information.

---

6. Interaction with External Services

To generate responses, the User’s request text may be transmitted to external processing services (LLMs) provided by third parties.

Processing of such information is carried out by the respective third parties independently and in accordance with their own terms and policies.

The Service does not determine the purposes or methods of such processing.

---

7. Data Transmission Security

Information exchange between the User’s device and the Service is carried out using secure communication channels.

---

8. Age Restrictions

The Service is intended for use by persons who have reached the age of 18.

By using the Service, the User confirms that they have reached the specified age.

---

9. Changes to the Policy

This Privacy Policy may be amended.

The current version of the Policy is published on the Service website.

---

10. Contact Information

Contact details are available on the Service website:
